

## Instructions for University of Melbourne Students and Staff: Configuring your device to connect to eduroam

**NOTE:** University of Melbourne students and staff cannot connect to eduroam when at the University of Melbourne

**TCP/IP:** Using DHCP

### Security:

Authentication	Encryption
WPA (minimum requirement)	TKIP
WPA2	AES

**EAP Type:** TTLS

**Authentication Method:** PAP

By default Windows machines do not have TTLS, users will need to download and install secureW2 from [www.securew2.com](http://www.securew2.com)
